2019 X-STREAM GREEN ADVENTURES

Choose 4 environmental stations for your Kemper Outdoor Education Center Field Trips!

Design Your Own Field Trip: Our X-Stream Green program is a multi-station outdoor education program designed for 1st through 5th graders. We can accommodate up to 125 children on each field trip. Students are divided into four to five smaller groups to experience hands-on, educational fun as they rotate through each program. Choose four outdoor adventures starting at \$250.00! The Kemper Outdoor Education Center Staff is offering more than 25 exciting environmental education programs for your selection, including:

All About Owls: Owls and other native raptors

American Eagles: Bald Eagles and Golden Eagles

Amphibians (Not All Wet!): Native frogs, toads and salamanders

Animal Immigrants: We came to America!

Animal Sounds: How and why they make calls

Armadillo Anyone?: A unique non-native mammal

Around Since the Dinosaurs: Native animals that survived time

Beavers & Fur Trade: Their historical significance

Birds, Bills & Beaks: What the beak says about the bird

Fishing with Cane Poles: Fishing basics, fish ID, outdoor ethics and sportsmanship

Flower Power: Understand the role of flowers in the living world through dissecting flowers

Habitat Hike: Hike through Wetlands, Prairie, Glade and Woodland

Hangin' with Bats: Mystery and myth, habits and habitat

Insect Defenses: Defensive weapons of the insect world

Missouri Icons: State animals and plants

Monarch Life Cycles: Discover the magic of metamorphosis as we examine the stages in the life cycle of butterflies

Nature Scavenger Hunt: Sensory exploration, scientific process, outdoor ethics and protection of resources

Pond Life: The life of a pond dweller, who we can see and who we can't see

Rap'n 'bout Reptiles: Snakes, turtles and tortises

Recycling Relays: How any child can contribute to saving our planet

Senses: Use turning forks, guessing various odors and looking at a preserved cow eye to understand the senses

Skins, Skulls & Tracks: A hands-on study of native mammals

SSSSSSSnakes!: Snake ID, safety and their important role in the environment

Totally Turtles: Life as a cold-blooded reptile

Wetlands: Learn about what a wetland is and where you can find them in Missouri

Space is limited, so sign up for your X-Stream Green Program TODAY!

Program Fees: Less than 75 kids/\$250 • 75-100 kids/\$355 • 101-125 kids/\$450
